

Weather by Tinybop

[Download Weather app by Tiny Bop](#)

Brief Description
Explore the weather and the science behind the weather that we experience on a daily basis.

Content Area(s)	Learning Audience	Instructional Focus	Resource Type
• Science	• 5-Mar	• Digital Learning	iPad App

Detailed Description of Use:
The weather app allows students to explore the science of weather. They can draw clouds and zoom in to see what clouds are made of. Students can also mix different elements such as air, wind, sun, temperature, water and precipitation to make weather. (Cost: \$2.99)
