| Detailed Description of Use: |
|--|
| Combine the convenience of your camera with the power of an interactive whiteboard. The Belkin Stage app allows you to annotate over video, pictures and PDF's or over a whiteboard screen. Teachers are able to record what they are teaching and upload it to another platform such as Showbie to catch students up on lessons that were missed or for students to re-watch if they do not understand the lesson the first time. |
